Aryza Control – effectively manage your
external collection partners

Benchmark and assess debt collection agencies objectively using Aryza Control. With extensive reports and dashboards as standard, you build a unique insight to stay in control.

What is Aryza Control?

Using Aryza Control you can initiate the dialogue between your organisation and your collection partners. Regular communicating and management using consistent and objective data provides a firm foundation for an effective partnership with multiple debt collection agencies (DCAs) and bailiffs. Working closely with clients, collection agencies, and bailiffs has allowed us to develop a safe and fast-to-implement distribution, reporting and benchmarking platform. The tried and tested functionality of Aryza Control puts you in direct control of your collection files.

Why Aryza Control?

Discover the power of Aryza Control for effective collaboration in the credit management chain. Control and insight are the key to success with multiple DCAs, by seeking dialogue based on accurate data, clients, collection agencies and bailiffs can perform better together.

As the market leader in this sector, Aryza offers essential insights into the end-to-end debt collection process, both for your B2B and B2C customers. This allows you to optimise your collection strategies and improve your customer satisfaction and collection rates by working more effectively with collections partners.

Sustainable cooperation within the credit management chain requires the right insight and mutual understanding. Aryza Control creates a uniform overview of collection results and provides powerful tools for analysis management. The insight gained enables you to optimally distribute your portfolio among your collection partners and thus improve your returns.

Aryza Control provides a reporting standard for external collection partners, allowing them to provide a simple report daily. All parties will have visibility and access to the same information.

Choose Aryza Control and put control and insight at the heart of working with your collection partners.

Aryza Control is a specialist platform with 100% focus on debt collection management. This is reflected in the functionality of our distribution, reporting and benchmark solutions. Thanks to our expertise in software, amicable and judicial debt collection, Aryza Control understands your challenges and the developments in your market. No need to reinvent the wheel, we have already done that together with our customers.

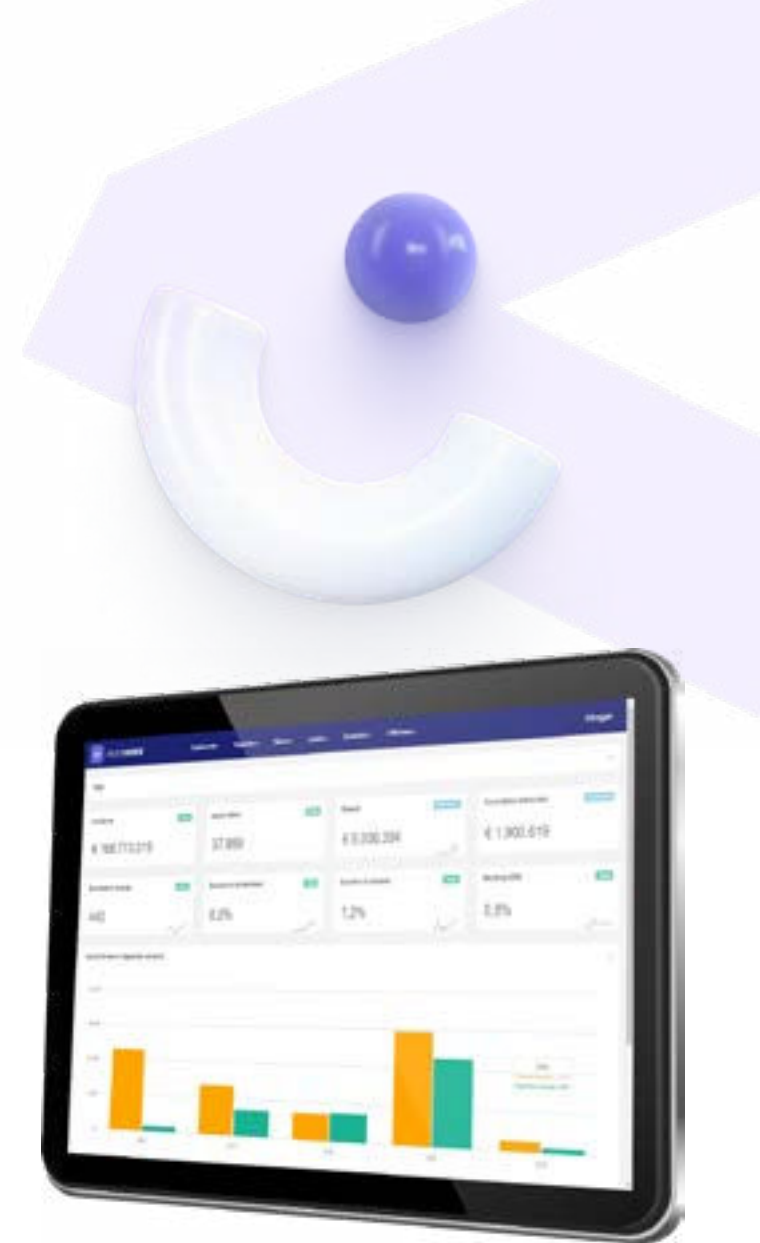

Benefits of Aryza Control

-  Secure hosted platform (SaaS, ISO 27001, ISAE 3402 TYPE II).
-  All standard reports readily available.
-  The debt collection benchmark platform of the Netherlands and Belgium.
-  100% transparency between you and your collection partners.
-  Always uniform information on actions and results (24/7).
-  Plug & Play, quick implementation leads to immediate returns.

Who is Aryza Control designed for?

Aryza Control offers excellent opportunities for integration within the credit management chain. As a principal, you have the ability to access both collection agencies and the bailiffs through the same portal. This allows you to track your portfolio throughout its lifetime, regardless of where and by whom it is handled.

This unique functionality means that Aryza Control is not only used by clients working with collection partners, but also by the collection parties themselves. This allows them to manage their efficiency, and report to their clients in an unambiguous way on both amicable and judicial files.

Software as a Service (SaaS)

Aryza Control is offered as Software as a Service. This means that the software is offered as an online service. You can focus on your credit management activities, while we manage the IT part for you. You do not need to manage the maintenance and administration internally and your data is safely under Aryza's management.

Standard reports

Aryza Control offers a wide range of standard reports and dashboards. Using filters and triggers, you have every opportunity to generate these reports as you see fit.

The reports aim to unburden you by providing 100% transparency, allowing you to focus on the KPIs relevant to you, the results and the differences between them.

Additional modules

To complement the basic version of Aryza Control, we also offer additional modules for distribution and backfeed.

By using the Distribution module, you can automatically share receivables from your credit management system with your collection partners.

With the Backfeed module, you get all the data on the Aryza Control platform delivered back to you in a single file. This allows you to fully integrate Aryza Control into your own credit management system.

We will be happy to show you how the software works, please contact us for a short demo and discussion around your requirements.

Compliance

With certified cloud technology, Aryza Control is quickly implemented and the burden on your internal organisation is minimal. Aryza Control has an ISAE 3402 Type II statement and is ISO 27001 certified, assuring you of the quality of our services.

Socially responsible debt collection

With Aryza Control, you as a client have full control and insight into the performance of your collection partners. You have full visibility of actions towards and costs charged to your customers.

Efficiency

Aryza Control users discover that socially responsible debt collection, compliance and returns go hand in hand. Yield increases, costs decrease and you have full control. This is our 'secret' to effective debt collection management.

About Aryza

We are a pioneering technology company with big ambitions and a proven track record in providing solutions for the management of debt.

Aryza is a trusted partner to a diverse range of customers across the entire debt cycle. We provide holistic, intelligent and dynamic solutions that help manage debt, insolvency and loans.
